Anatomy of a House Move, Part III
Chary Caren, SJCHT Boardmember

Nickel Brothers removed the basement walls of St. Patrick on February 13 and 14.
The next stage is removal of the front steps and placement of wheels below St. Patrick, removing temporary supports ("cribbing"), and freeing the house to move.
St. Patrick’s journey from Oak Bay to the Vancouver Island barging site is slated to take place on March 13 or 14, with delivery on San Juan Island expected soon after.

To be removed from our list please send an email to unsubscribe@hometrust.org with "remove" in the subject line or body. Many Thanks.
