May 8, 2019 is GIVE BIG Day in Washington.

We all depend upon the residents of Home Trust homes. We also depend upon islanders yearning for an affordable home but unable to buy. Why? Their affordable home hasn’t yet been built.

For 16 years the Home Trust has been building the only permanently affordable housing on San Juan Island. We are a small organization struggling to meet a huge housing need; we need your PARTNERSHIP!

HOME TRUST PARTNERS may have a little/a lot of expendable income, but all have a limitless desire to benefit our island community by contributing to build permanently affordable housing. Your partial and full subsidies will have an enormous and permanent impact on the community. A subsidy for one house now averages about $150,000, we need your help – please give generously!

For all of us, living on San Juan Island will only be sustainable when we have housing that is affordable for those who keep our island running:
